

- 09:00 - 09:15 Welcome & Introduction
- 09:15 - 09:35 What's new in the EtherNet/IP world, CIPSEs and ESEs
(Presenter: Joakim Wiberg, HMS)
- 09:35 - 10:00 WireShark extensions based on Lua
(Presenter: Frank Jordan, Rockwell automation)
- 10:00 - 10:30 RSTP fast recovery
(Presenter: Todd Snide, Schneider Electric)
- 10:30 - 11:00 Coffee Break
- 11:00 - 11:30 LLDP & EtherNet/IP
(Presenter: Markus Rentschler, Belden)
- 11:30 - 11:45 Planning for Workshop #14 (all)
- 11:45 - 12:00 Low cost performance testing
(Presenter: Viktor Schiffer, Rockwell Automation)
- 12:00 - 12:30 Comparison of various capture setups
(Presenter: Ulrich Kämmerer, Schneider Electric)
- 12:30 - 13:30 Lunch Break
- 13:30 - 13:45 Device reaction time measurement
(Presenter: Ulrich Kämmerer, Schneider Electric)
- 13:45 - 14:00 PC-based traffic generation
(Presenter: Frank Jordan, Rockwell Automation)
- 14:00 - 14:15 Traffic capture card for PC, Ralf Hornung
(Presenter: Ralf Hornung, Hilscher)
- 14:15 - 14:30 Evaluation of captured data
(Presenter: Julian Fielding, Rockwell Automation)
- 14:30 - 15:00 Discussion and further actions (all)
- 15:00 - 15:30 Coffee Break
- 15:30 - 15:45 Report on PlugFest #11
(Presenter: Viktor Schiffer, Rockwell Automation)
- 15:45 - 16:00 Planning for Workshop #14 and PlugFest #12 (all)
